RE: Notice of Noncompliance, Barnabas Christian Academy Inc (1270)

Dear Private School Administrator:

Our office has recently been advised of a change in your school's physical location. Private school laws require that your new facility be inspected, and in order to participate in a scholarship program, the results must be reported to the Office of Independent Education and Parental Choice. Private schools participating in a state scholarship program that change location are required to submit the following documentation:

- An updated, signed, and notarized Scholarship Compliance Form
- An updated, signed, and notarized Private School Annual Survey
- A satisfactory or violation-free Department of Health Inspection Form DH4160 for the new location
- Radon test results reported on the Department of Health Form DH1777, if applicable
- A satisfactory or violation-free fire safety inspection report conducted by the local fire department for the new location

These requirements are outlined in Section 1002.421, Florida Statutes. You have been granted fifteen (15) calendar days from the date of this letter to submit the required documentation in order to come back into compliance for the current school year. Failure to provide the department with the documentation listed above within fifteen (15) calendar days may result in the suspension or revocation of your school's participation in the state scholarship programs, including the McKay Scholarship, Florida Tax Credit Scholarship, and/or Gardiner Scholarship.

Adam Miller, Executive Director
Office of Independent Education & Parental Choice
